

I live in Indiana and the no call law here has worked very well.
It has made a definite difference in my situation.
I receive almost no unsolicited calls. I oppose any new law,
regulation or action by the FCC or the implementation any proposal that would
lessen Indiana's Telephone Privacy law protections or weakens
the Indiana law or provides for less than I already have. The Indiana law is
effective and should not be superceded by any Federal action, regulation or
legislation.
protection.
